

FIRST (For Inspiration and Recognition of Science and Technology),
WPAFB Educational Outreach & Wright State University –
College of Engineering and Computer Science

would like to invite you to a

High School Robotics Exhibition

at
The Nutter Center
on
May 24, 2004
from
4:00-9:00

High school students from across the state of Ohio will be demonstrating their robots in competition form and displaying the work completed over the FRC (FIRST Robotics Competition) season.

Throughout the year high school students and technical mentors worked as a team to design and build a robot that solved a problem using a common “kit of parts” and a standard set of rules.

These students would like to share their accomplishments with you and inspire an appreciation of science and technology in Ohio!

**Find out how you can be part of a team
for the 2005 season as a participant, mentor, advisor or
sponsor; or help these young people celebrate their
accomplishments, by joining us on the 24th!**
